EDUCATION

Indian Institute of Information Technology, Una Una, Himachal Pradesh, India
Computer Science and Engineering *Dec 2021 - July 2025*

Barfani Academy , Indore Madhya Pradesh , India
XII *2020 Pass Out*

EXPERIENCE

Troywings Technologies June 2024 – Present
Software Engineer- Intern *Remote*

- Working with ASP.NET C and MVC architecture to support and enhance web applications.
- Collaborating with cross-functional teams to ensure high-quality, efficient software solutions.
- Implemented responsive and user-friendly interfaces to enhance user experience.

Appenius Private Limited Fab 2024 – May 2024
Android Developer Intern *Remote*

- Developed a Recharge Management App using Kotlin, XML, and Firebase.
- Enabled users to manage recharge histories, track expiry dates, and organize family contacts within the app.
- Implemented real-time data synchronization with Firebase to ensure accurate and up-to-date information.

Tecxon Private Limited April 2024 - July 2024
Android Developer Intern *Remote*

- Developed a Ride Sharing app facilitating shared rides among users traveling similar routes.
- Implemented user verification for drivers and passengers to ensure safety and reliability.
- Integrated real-time chat and call features for communication between users sharing rides.

TECHNICAL SKILLS

Languages: C/C++/C#, Kotlin
Web Frameworks: Asp.net mvc, React js
Developer Tools: Git, Gitlab, Android Studio, VS Code , Visual Studio Community
Operating System: Windows, Linux
Databases: MySql, Firebase, Sqlite
Android:Room Database, Retrofit, View Binding, MVC, MVVM, Coroutines, Dagger, Hilt, XML, Android Lifecycle, Rest API, Glide, Volley, ML Kit

PROJECTS

MyGoogle Assistant | *Kotlin,Java, Glide,Weatherbit API, Retrofit, Volley* Jan 2024

- "MyGoogleAssistant" is a dynamic Android project, seamlessly blending Kotlin's expressiveness with Java's robustness..
- Developed in Android Studio, it leverages the strengths of both languages to create an efficient and feature-rich virtual assistant.
- This synergy ensures a modern, user-friendly experience, showcasing the versatility of Kotlin and the stability of Java in mobile app development.

FoodOnDemand | *Kotlin,Sql* Sept 2023

- I made a cool recipe app using Kotlin for Android! Discover tasty dishes, follow easy steps, and level up your cooking skills with this user-friendly app.

Tour and Travel Website | *HTML, CSS,Bootstrap* Oct 2022

- A visually captivating and user-friendly frontend for a tour and travel website, offering intuitive navigation and immersive content

CODING PROFILES

- **Leetcode** (Link)
- **Codechef** (Link)
- **HackerRank** (Link)

ACHIEVEMENTS

- **Achieved 50-Day LeetCode Badge.** (Link)
- **200+ problem Solved on Codechef** (Link)
- **Certification** Coursera (Algorithmic Toolbox) ,UC San Diego (Link)
- **Secured First Position** Women Development Cell (Article Writing Competetion) ,University Of Delhi (Link)
